

## Preschool – Kindergarten Challenge Options

Prompt: Build a house that looks like an animal or food.

Rules:

1. Have kids build a house that is shaped like their favorite animal or food. We keep the prompt open ended so kids can come up with their own ideas! See the next page with real-life examples.
2. The only permitted supplies are recycled materials and common classroom art and building supplies. See page with list of suggested materials.
3. Adults can help provide guidance on projects, however we want kids to be in charge of creating! We expect all projects to look like children made them!
4. Adults must submit the entries by **March 9 at 11pm EST.**

Entry must include the following:

1. First name of kid(s) who completed the project
2. Up to 4 pictures of the project at different angles
3. 3-4 sentence description on their project (we want to understand what they made and why they made it)

Rubric:

30 points: Creativity (out of the box thinking and creative use of materials)

15 points: Solved challenge question (fulfilling the requirements of the prompt)

5 points: 3-4 sentence description on their project (creative and clear explanation of what kids created in their own words)

## Real Life Examples
